- Prices are quoted ex works.
- REGIONAL DEALERS: Free (economy service) delivery for orders over R8000.00 (excl Vat) with a maximum of one free delivery per week by a courier of our choice.
- AUTHORISED DEALERS: Free (economy service) delivery for orders over R8000.00 (excl Vat) with a maximum of one free delivery per week by a courier of our choice.
- 5 STAR AUTHORISED DEALERS: One free (economy service) delivery per week by a courier of our choice.
- Free delivery does not include weights or cylinders.
- With immediate effect, accounts will be credited with the actual amounts received by Scuba Equipment Africa after cash deposit or credit card fees have been deducted. The current rate for cash deposits is 1.35% and for credit cards is 4.5%, which is subject to change without prior notice.

PRICING GROUPS

PRICING GROUPS: Please note that there are multiple pricing groups with different pricing structures.

GROUP 1: SCUBAPRO: Retail items with a 3 tiered pricing structure.

GROUP 2: Promotional items and Consumables with a fixed wholesale and reduced markup.

GROUP 3: All SEALIFE, spares and other Professional use items with a fixed wholesale and reduced markup.

GROUP 5: SUBGEAR: Retail items with a 3 tiered pricing structure.

GROUP 6: H2O: Retail items with a 3 tiered pricing structure.

WARRANTY

SCUBAPRO regulators are guaranteed for life, for the initial buyer. SUBGEAR regulators are guaranteed for 30 years, for the initial buyer. All other articles are guaranteed for two years. We are liable under the said guarantee solely for manufacturing defects duly noted by our technical departments. The guarantee may not apply if our equipment is not used and maintained under the conditions stipulated in the technical notices, or if it is due to normal wear and tear.

SCUBAPRO, SUBGEAR & SEALIFE RESERVES THE RIGHT TO EITHER REPLACE OR REPAIR AN ITEM UNDER WARRANTY.

REGULATORS - PRICE LIST 2014

SCUBAPRO MK25

SCUBAPRO leads the way in piston controlled first stages. The MK25 is the perfect example, bringing you ultra stable intermediate pressure which ensures an instant and constant delivery of ultra high airflow. Made of chrome-plated, marine-grade brass, you can count on an incomparable performance for all diving conditions and at any depth.

- Polished chrome marine grade brass
- Balanced High Performance First Stage
- Air-Balanced Flow-Through Piston Design
- Patented finned cap for anti-freeze measure
- Externally Adjustable Intermediate Pressure
- 5 Port LP Swivel and Dual HP Ports

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)
10 713 000	INT 232	6795.00	5096.25
10 713 300	DIN 300	6795.00	5096.25

SCUBAPRO MK21 new

A NEW compact balanced piston controlled first stage with exceptional breathing performance at a mid-range price. Compact in size but not in features, this modern, edge design first stage has a 'smart' hose layout for perfect positioning and easy identification, ideal for technical divers.

- Close to 20% smaller than our MK25
- Easy maintenance
- Thermal exchange design with external fins, optimising freezing resistance.
- Optional replaceable head for optimal positioning with 4LP routing configurations (0°/30°) plus a 5th, central LP HF port
- Standard head with 4 LP hose routing (+/20°)
- 2 HP ports, one on each side of the body.
- Polished chrome plated marine grade brass
- Re-designed yoke and cap

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)
10 721 000	INT 232	5595.00	4196.25
10 721 300	DIN 300	5595.00	4196.25

SCUBAPRO MK17

The MK17 is a high performance, balanced diaphragm first stage engineered especially for cold water or harsh environments. The MK17 is enviromentally sealed so neither water nor pollution can enter the inner mechanism. Full-metal (chrome plated marine grade brass) body and components and a dry ambient pressure chamber prevent it from freezing, ensuring trouble free operation even in coldest conditions.

- Polished chrome edition
- Balanced, diaphragm controlled High Performance First Stage
- Dry Seal Chamber
- Patented finned cap for anti-freeze measure
- Externally Adjustable Intermediate Pressure
- 4 LP (2 High-Flow-Port) and Dual HP Ports

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)

10 714 300	DIN 300	4795.00	3596.25

SCUBAPRO MK11

With its chrome plated brass body specially designed to reduce size and weight, the MK11 is an ideal travel companion. The diaphragm system keeps water and pollution out of the main mechanism while balanced technology delivers air promptly at all tank pressures.

- Polished chrome edition
- Balanced, diaphragm controlled High Performance First Stage
- Externally Adjustable Intermediate Pressure
- 4 LP (2 High-Flow-Port) and Dual HP Ports

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)

10 708 300	DIN 300	3995.00	2996.25

SCUBAPRO MK2

The SCUBAPRO "workhorse", the MK2 Plus, was originally first introduced in 1962. This continuously updated classic downstream piston regulator remains as popular as ever, especially in schools and training centers. Compact, simple and reliable, the MK2 Plus is reputed for easy maintenance and great performance.

- Polished chrome edition
- Standard Piston Design
- 4 LP Ports - 1 HP Port

SCUBAPRO A700

• Precision crafted full metal construction and design, for best thermal exchange, lowering freezing potential in cold water
• Innovative technological features
• Compact dimensions
• Air balanced valve technology for super smooth breathing
• Diver adjustable inhalation effort with micrometric adjustment knob
• Newly aligned VIVA system for better control and comfort
• Super high flow exhaust valve

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)
11 700 000		8995.00	6746.25

SCUBAPRO S600

Newly restyled in 2013, our best-selling S600 is continuously evolving and is in its 5th edition. Timeless design and chrome plated marine grade brass make this high performing system a classic.
• Air Balanced Flow Valve
• Diver's Adjustable Inhalation Effort
• Adjustable VIVA
• High Flow Exhaust Valve
• Metal Components
• Super comfort High-flow mouthpiece

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)
11 603 000		7325.00	5493.75

SCUBAPRO G260

The G260 is a balanced adjustable second stage featuring metal components for excellent cold water resistance (inlet tube, orifice, inhalation control knob and hose connector). Its high performance makes it a choice for all demanding divers and it will be the natural choice for G250 fans. The left-right hose attachment option makes it ideally suited for tech diving configurations.

• Air Balanced Flow Valve
• Diver's Adjustable Inhalation Effort
• Adjustable VIVA
• Super High Flow Exhaust valve
• Metal Components
• Large Diaphragm
• Reversible Hose Attachment
• Super comfort High-flow mouthpiece

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)
11 263 000		6595.00	4946.25

SCUBAPRO S560 new

A lightweight, techno-polymer barrel, air balanced second stage, with diver adjustable inhalation effort and VIVA. The S560 ensures effortless and smooth breathing in all conditions.

- Lightweight techno-polymer barrel
- Air Balanced flow Valve
- Diver's Adjustable Inhalation Effort
- Adjustable VIVA
- High Flow Exhaust Valve
- Metal Components
- Super comfort high-flow mouthpiece

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)
11 560 000		4795.00	3596.25

SCUBAPRO S360 new

An air balanced second stage with adjustable VIVA. This system is based on the new S560, but with pre-tuned inhalation for uncomplicated use. It's an ideal choice for avid divers wanting performance yet a simple to operate system.

- New Air balanced Flow Valve second stage
- Adjustable VIVA
- Pre-tuned inhalation effort
- High flow Exhaust valve
- Double O-ring seals

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)
11 363 000		3995.00	2996.25

SCUBAPRO R095

The R095 features classic downstream valve technology, well known for safety and reliability. Pre-tuned for safe and uncomplicated use, a certain inhalation effort is always required to open the valve. The R095 is designed to be a simple, no fuss regulator and to provide a simple and reliable breathe.The hose for the R095 can be reversed to come from either the right or the left to provide the most comfortable hose routing

- Classic downstream valve
- VIVA Preset
- Super-flow hose
- High comfort orthodontic mouthpiece
- Full metal valve housing
- Left/right hose attachment

S600 SYSTEMS

SCUBAPRO MK25/S600 TITANIUM - SPECIAL ORDER

The first stage is machined from a solid block of titanium; the second stage uses titanium on the exterior housing plus a machined titanium interior barrel, for ultra light high performance. And beyond weight, titanium does not corrode, even in concentrated salt water conditions, for unlimited years of use. And its low-magnetic signature makes it the preference of military divers.

GROUP 1

INSTRUMENTS - PRICE LIST 2014

SCUBAPRO GALILEO SOL

The Galileo Sol is our ultimate dive computer, with limitless, unique to the industry features.

- Extra-large dot matrix display and huge memory
- Exclusive Heart Rate Monitoring System
- Predictive Multi Gas algorithm
- User adjustable backlight display
- Choice of 3 pre-figured screen display modes: Light, Full and Classic
- Full-Tilt Digital Compass with Bearing Memory
- Hoseless Gas Integration with True Remaining Bottom Time Calculation
- Updatable Processor that can be reprogrammed via Infared
- EN Certification to 330m
- User-replaceable battery with tissue loading memory
- ZH-L8 ADT MB (adaptive) algorithm w/ advanced microbubble suppression technology
- Nitrox 21% to 100% (1% increments)
- True remaining bottom time (RBT) calculated using tank pressure, breathing rate, depth, ideal ascending speed and more.
- PDIS (Profile Dependent Intermediate Stops) for optimised diving
- Oil Filled technology
- Infrared technology and PC download capability
- 300 bar compatibility
- Dive planner
- Displays current tank pressure and remaining bottom time (RBT)
- Mid-tank pressure warning / Maximum depth alarm
- Easy to use user interface, similar to a cell phone
- Personalised with owner or emergency or health information

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)
05 077 100	SOL (with Polar HR strap and air transmitter)	22995.00	17246.25
05 055 020	Galileo/Smart Air Transmitter only	5995.00	4496.25

SCUBAPRO GALILEO LUNA

All of the features of the Galileo Sol except two, which can be added as optional upgrades later:

- Exclusive Heart Rate Monitoring System (HRM)
- Predictive Multi Gas algorithm (PMG)

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)
05 076 100	LUNA with transmitter	18595.00	13946.25
05 076 101	LUNA without transmitter	14395.00	10796.25

SCUBAPRO GALILEO UPGRADES

HEART RATE MONITOR UPGRADE -

- Update Galileo Luna to include Heart Rate Monitor
- Includes Galileo Software upgrade key code & belt

PREDICTIVE MULTI GAS UPGRADE -

- Update Galileo Luna with Predictive Multi Gas Function (3 gas)

TEC SW / TRIMIX UPGRADE -

- Update Galileo Sol / Luna to use Helium gas mixes (Trimix)
- Up to 10 gas mixes
- Luna requires the PMG upgrade before Trimix is possible.

SCUBAPRO MERIDIAN

- Marine grade 316L stainless steel case
- Magnetically operated buttons - No holes through case & no O-rings!
- World's first 32bit processor watch computer
- SCUBA mode with 21 - 100% Nitrox & adjustable PPO2
- Predictive Multi Gas (PMG) - 2 Gas
- PDIS - Intelligent Deep Stops calculated to optimise dive profile
- ZHL8 ADT MB algorithm - Adapts for altitude, temperature, dive profile & workload.* User selectable conservativeness - L0 to L5
- Optional integrated Heart Rate Monitor for workload calculation
- APNEA mode with a specific low HR alarm
- GAUGE mode for extreme technical diving
- Full watch functions - date and time in 12 or 24 hour notation, stop-watch underwater and on the surface, UTC setting, wake-up alarm, silent mode & battery status display
- OUTDOOR functions - thermometer, altimeter & stop-watch
- Maximum depth: 120m
- Ultra low energy consumption for long battery life
- Reverse Contrast Backlight extends battery life

SCUBAPRO MERIDIAN BLACK TECH - LIMITED EDITION

Incorporates a PVD (Physical Vapour Deposition) finishing process applied to the AISI 316L Stainless Steel body. PVD, when applied on metal surfaces, increases ruggedness, scratch resistance and surface hardness. The finish is accomplished using Titanium Nitride and provides the following advantages:

- 2500HV hardness for significantly improved anti-scratch effect (compared to stainless steel's 190HV harness)
- Unaffected by UV rays
- 100% non-toxic
- High corrosion resistance
- Low friction co-efficient
- Very low magnetic signature

SCUBAPRO CHROMIS new

The new CHROMIS wrist computer is ready for your next adventure, in or out of the water. Reaching a new level of clarity, the large display and Katana sharp characters are proven to be exceptionally readable underwater. You'll have a host of tools at your fingertips, including a full featured dive computer, apnea gauge, timepiece and patented swim stroke counter.

- Easy to read larger digits
- ZHL8 ADT MB algorithm
- Dual time
- Stopwatch function in SCUBA mode
- 120m maximum operating depth
- Larger capacity CR2430 battery
- SCUBAPRO engraved SS316L stainless steel front ring and back
- Patented Swimming Stroke counter: counts strokes or kicks and calculates distance
- Colors: Black, Orange, White
- Strap extension included
- Nitrox settings 21% to 100%
- Feed through push buttons
- APNEA and GAUGE modes
- USB connection with cradle usable for everyday
- Logs can be stored and analyzed with a PC/Mac
- Alarm clock

BUOYANCY COMPENSATORS PRICE LIST 2014

SCUBAPRO SEAHAWK

A dynamic, comfortable back inflation BC that allows excellent freedom of movement while still providing adequate storage with traditional cargo pockets.

- Back flotation technology positions air bladder in the back
- 3-dump deflation system
- Streamlined air cell technology
- Mono-bungee on air cell to control the size automatically and keep the air cell streamlined when partially inflated
- Rotating Quick Release shoulder buckles and adjustable shoulder straps
- Spacious zippered pockets
- Soft neoprene neck roll and padded back pad
- Firmly padded, flexible cummerbund

SCUBAPRO BELLA

- Specifically designed and meticulously tailored for female divers
- Wrap-around air bladder retains cradle-like shape to "hug" the diver throughout full range of inflation
- Monprene® pads in shoulder area for substantially enhanced topside comfort
- Front-adjustable design with rotating quick-release shoulder buckles
- 3-dump deflation system for enhanced buoyancy control in varying diving positions
- Quick-release integrated weight system offers more comfort and convenience
- Rear trim pockets counterbalance the front weight, providing a well-balanced swimming position
- Soft neoprene neck and padded backpack for optimum comfort
- Fully-adjustable cummerbund to ensure proper fit

SUITS - PRICE LIST 2014

SCUBAPRO EVERTEC LT - SPECIAL ORDER

new

This is a newly redesigned, lighter weight version of the original Evertec tri-laminate drysuit - with telescopic torso, flex seals, and new, seamless heel neoprene socks. Constructed in a new rip-stop fabric, which is 25% lighter than its predecessor, with a slight stretch for better flexibility.

- High Quality Heavy Duty trilaminate material ensures durability and quick drying, yet remains light weight
- Telescopic torso plus elastic suspenders and crotch strap
- Flex Seal seams keep the suit comfortable and flexible
- Long diagonal T-Zip Materseal dry zipper for self-closing and easy donning
- Additional Nylon Flap with zipper closure protects the dry zip
- Practical and easy access utlility pocket on thigh
- The warm neck collar keeps the heat in and protects the latex collar.
- Double material in contact areas
- Soft compressed neoprene socks that can be worn alone, with neoprene boots or with heavy duty boots
- Si-Tech® balanced side-activated inlet and adjustable outlet valves

SCUBAPRO EVERDRY 4 - SPECIAL ORDER

Made of 4mm thick high density neoprene, Everdry 4 is comfortable like a wetsuit, but as a drysuit, keeps you warm and water tight.

- 4mm high-density neoprene maintains optimal thermal insulation but weighs 50% less and is softer than any traditional dry suit
- Si-Tech® balanced side-activated inlet and adjustable outlet valves
- Reversed construction rolling neoprene neck seals: watertight protection and easy to get in and out of
- Easy-to-repair neoprene wrist seals for no-leak insulation and comfort
- Dry back zipper with exterior neoprene protection flap
- Elastic, adjustable & removable suspenders
- 5mm/6.5mm anatomically shaped hood keeps you dry & comfy: prolonged neck; soft face & neck seals; air release system
- Soft sock neoprene boots

SCUBAPRO ONEFLEX 5MM STEAMER new

The new Oneflex steamer was designed to maximise durability without sacrificing comfort. They are made of a strong but stretchable X-Foam neoprene with a tough nylon lining and anti-abrasion material on knees, perfect for an all-round entry level wetsuit. Oneflex suits offer comfort and long life even with intensive use.

- Nylon
- Back Zip
- Ankle Zips
- Everflex or Flexible Panels
- Powertex

SCUBAPRO SEAWING NOVA FULL FOOT

The revolutionary technology of the award-winning Seawing Nova is now available in a high-performance, full foot version. The result is exceptional power, speed and manoeuvrability with minimal effort, together with class-leading foot support and comfort..

- New ERGO-FIT foot pocket features: Power-Rails to transfer power and prevent cramp, widened toe-box for improved comfort, Low-cut ankle and heel to prevent chaffing and blistering.
- Durable full Monprene construction

The Seawing Nova full foot is the ideal fin for warm water divers who are not prepared to compromise on performance and durability.

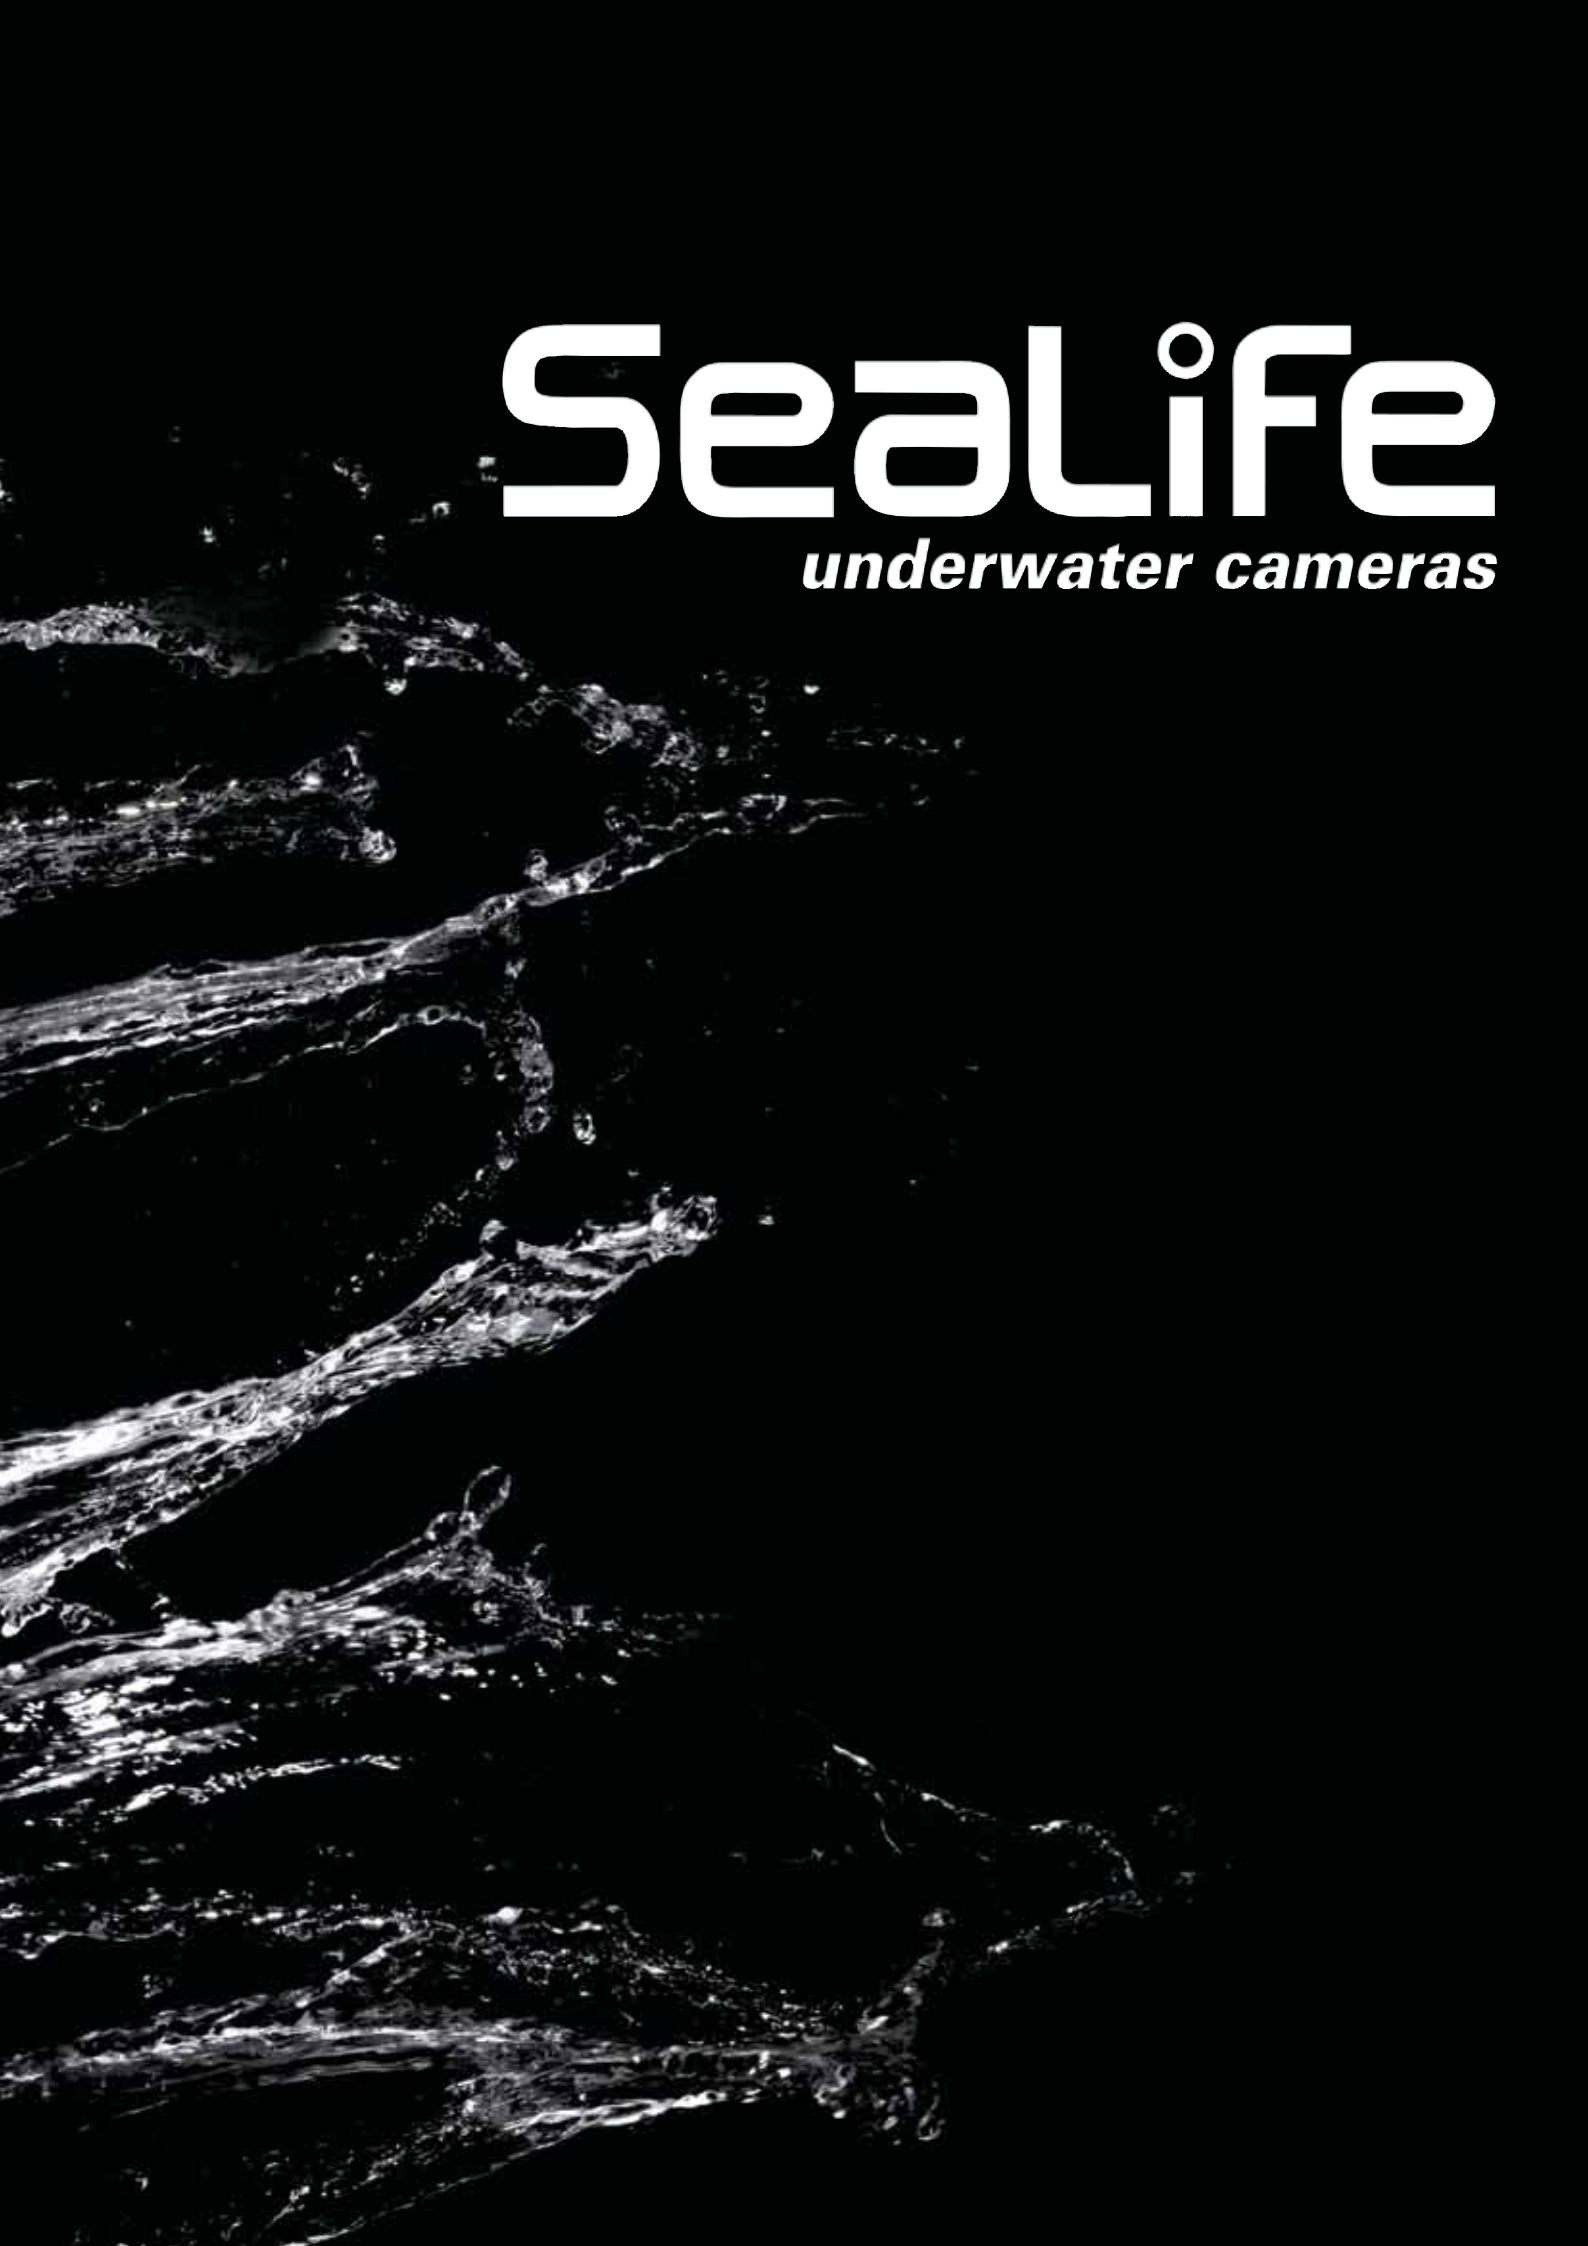
SeaLife

underwater cameras



* Limited Edition Pink

DC1400 HD

Special SeaLife Features

- "Piano Key" controls for easy operation. 5 large buttons with big shutter and zooming lever for easy camera control, even with gloves on
- Easy Set-up mode – Easy 1-2-3 graphic on screen guide –takes the guess work out of setting up the camera for great pictures
- 6 Underwater Modes for sharp, colorful underwater pictures under any conditions. Includes 4 built-in digital color correction filters
- Expandable with one or two SeaLife Digital Pro Flashes (SL961) and Photo-Video Lights (SL980) (Note: SL970 wide-angle lens will vignette)
- Spy Mode – The camera automatically shoots continuous pictures at set time intervals
- Rubber armored, shock-resistant for rough handling and tough environments
- Depth tested to 200 ft (60m) – Guaranteed
- Manual shutter and aperture control in Ext Flash mode
- No O-ring lubrication required – Hassle-free O-ring maintenance - Just keep O-ring clean!

Technical Features

- HD Video mode – Record continuous High Definition video with sound
- 14 megapixel CCD for sharp, high-resolution pictures
- 26mm Wide Angle lens. Get closer to the subject and fit everything into the picture
- Super Macro Auto focus from 1" (5cm) to ∞
- Large 3.0" LCD for easy on-camera viewing
- 25X zoom - 5X optical zoom plus 5X digital
- Lithium battery 700mAh for 2+ hrs/200+ pics
- Fast shutter response time* and quick start-up for fast action photography. *(As fast as 0.3 sec in Ext Flash mode and infinity focus)
- SD and SDHC card compatible up to 32GB
- 27 Land Scene modes – Automatically pre-sets the camera for the type of scene
- Removable inner camera
- Optical Image Stabilisation (OIS) – CCD shift technology reduces camera shake caused by hand movement
- Manual White Balance control with short-cut key for fast and easy manual white balance setting

The ideal camera for diving, outdoor sports and traveling.

REEFMASTER MINI

The all new ReefMaster Mini builds on the success of the multi-purpose Mini 2 by being specifically designed as a self-contained underwater dive camera. With a 60m depth rating and new colour enhancing firmware, divers are able to capture outstanding photos and videos with vibrant colour. The included Mini Wide Angle Lens allows you to get really close to your subject, further improving picture quality and macro ability. The enhanced Easy Setup Guide ensures you get the best results with the minimum effort.

As with its Mini 2 sibling, the ReefMaster Mini is extremely compact and easy-to-use with a large LCD screen, bold-red rubber grip and widespread controls for easy underwater handling.

- Waterproof to 200ft / 60m
- Mini Wide Angle Lens (SL974) included - Provides a wider field-of-view and 1ft/30cm shooting distance
- Large, wide spread 3-button design for easy operation
- Easy Set-up mode – Graphic on-screen guide for setting camera mode – no complicated menus
- Land Auto mode for action land pictures and videos in extreme conditions
- Dive and Snorkel modes for underwater exposure control and color correction – no more blue pictures
- Ext Flash mode for integration with external flash to enhance color and brightness underwater
- Video mode at 30fps with sound
- Fully Rubber-Armored, Shockproof 6ft / 2m
- Instant focus lens from 1ft (30cm) to infinity
- Spy Mode – The camera automatically shoots continuous pictures at set time intervals
- Compact, slim design
- Self-contained dive camera (no housing)
- 9 megapixels for sharp, high-resolution pictures
- Large 2.4" TFT Color LCD for easy on-camera viewing
- Soft Rubber grip design for sure grip
- SD and SDHC card compatible (Up to 8GB)
- Expandable with popular SeaLife accessories (including the Digital Pro Flash and Photo/Video Light & Mini Wide Angle Lens)

DC1400 REEF EDITION SET new

The new SeaLife DC1400 Reef Edition pairs the DC1400 underwater camera with the ultra-wide Fisheye Lens for stunningly beautiful underwater photos and HD videos. The Fisheye Wide Angle Lens increases the already wide lens of the DC1400 camera to 16mm – an 80% increase in field of view!

The DC1400 Reef Edition gives you the incredible perspective of an entire wreck or reef scene that would be impossible to capture with a standard lens. Maintain a wide field of view all the way down to 1-inch of your subject in Super Macro Auto Focus Mode with your Fisheye Wide Angle Lens. The versatile Fisheye Lens works equally as well for shooting HD videos with your DC1400, adding more to the shot while easily staying within the distance limits of a video light.

The set includes the DC1400 underwater camera, Fisheye Wide Angle Lens, and soft Compact Pro Case, perfectly sized for air travel or bringing aboard the dive boat. The DC1400 Reef Edition easily expands with all of SeaLife's underwater lighting accessories, in order to bring out even more color and depth in your photos.

SEA DRAGON DIGITAL FLASH new

The powerful and compact Sea Dragon Flash makes it simple to add light to your images down to 200 feet/60 metres. Reducing backscatter and producing rich, deep colors in underwater photos, the Sea Dragon Flash is compatible with all SeaLife camera models as well as other brands of underwater cameras.

Variable power adjustment and large controls make it easy to fine tune brightness, while leaving the flash in Auto Mode automatically adjusts brightness for optimal exposure. A quick-release button detaches flash head for aiming in hard to reach areas.

- Universal - Works with SeaLife and other brands of underwater cameras
- Auto Mode automatically adjusts flash brightness for optimal image exposure
- Variable power adjustment allows user to manually fine-tune flash brightness for desired effect and image exposure
- Easy to expand with Flex-Connect™ trays, grip and Flex Arms
- Depth rated to 200 feet/60 metres
- Quick-release button to detach flash and aim in crevices and hard to reach areas
- Universal mount fits all SeaLife cameras and other brands of underwater cameras with standard tripod mount
- Auto Learn Mode easily syncs pre-flash with any digital camera
- Effective underwater distance range up to 8 feet/2.5 metres
- Approximately 150 flashes with 4 AA batteries (not included)
- Waterproof battery compartment

SEA DRAGON 2000 PHOTO VIDEO LIGHT new

For a constant, ultra-bright source of light for photos and videos - or just to brighten your dive - the compact Sea Dragon 2000 uses the latest in LED technology and packs 2000 true lumens of brightness. Powered by a rechargeable lithium ion battery, the light burns for a full hour at 100% power with constant brightness.

Featuring a wide, 100-degree beam angle that's perfect for cameras with a wide field of view, the light operates with only a single button, quickly adjusts between 3 power levels, and is depth rated to 200 feet/60 metres.

- Powerful 2000 lumen LED light using the latest LED technology, featuring 6x CREE XPL LEDs
- One button control for easy operation - one button to power light on/off and select brightness
- Three brightness levels: 100%, 50% and 25%
- 60 minute burn time at full power and constant brightness
- Depth rated to 200 feet/60 metres - Guaranteed
- Easy to expand with Flex-Connect™ trays, grip and Flex Arms
- Quick-release button to detach light and aim in crevices and hard to reach areas
- Auto Flash Detect Mode turns light off for 2 seconds when external flash is detected
- 100° wide beam angle evenly illuminates the subject with no hot spots
- Corrosion-proof metal light head for heat dispersion and durability
- Removable Li-Ion battery w/ charger and international plug adapters included
- Waterproof battery compartment
- Universal mounting screw fits SeaLife and other brands of underwater cameras w/ standard ¼-20 tripod mount

SEA DRAGON MINI 600 PHOTO VIDEO LIGHT new

Designed for multiple applications down to 300 feet/100 metres, the Sea Dragon Mini 600 features a wide 75-degree beam angle, two power modes, and easy on/off control with the twist of the light head bezel. Power is supplied by two CR123 batteries (included) or an optional rechargeable lithium ion battery (Tenergy 18650 3.7v) delivering up to 100 minutes of burn time at full power.

The Sea Dragon Mini 600 is compact enough to fit comfortably in your hand, but can also easily be used for other applications. With the included GoPro camera mount, cold shoe mount, SeaLife AquaPod mount, universal Y-S adapter and lanyard clip, you can add brightness to your dive in any situation.

- Powerful 600 lumen LED dive light using new CREE XM-L2 LED
- 75° wide beam angle
- Easy operation twist head to power on/off
- Easily adjust between two power modes – 100% and 40%
- Depth tested to 300 feet/100 metres - Guaranteed
- Includes two CR123 lithium batteries delivering an hour of burn time at full power
- Rechargeable Tenergy 18650 Li-ion battery also available, delivering 100 minutes of burn time at full power
- Anodised aluminum head and tough polycarbonate body
